Professional Work Experience

IT Specialist

Alternative Family Services – Full Time

Aug 2025– Present

- Designed, built, and maintained data analytics pipelines and dashboards across multiple platforms (Periscope/Sisense, Zoho Analytics), utilizing SQL, PowerBI, and an in-house Data Warehouse.
- Administered multiple agency-wide systems, supporting daily operations by managing system configurations, user access, and issue resolution.
- Diagnosed and resolved technical issues with computer software and networks.
- Provided technical assistance to users, answered questions, and guided staff through troubleshooting steps virtually, in-person (as needed), and/or via email and/or training through the agency's IT service desk.
- Provided training to users on new software, or IT systems, when necessary.

Software Engineer

Acuren Engineering – Full Time

Feb 2025 – Jul 2025

- Developed and maintained Windows and web-based applications in an Agile .NET environment.
- Upheld Object-Oriented Programming (OOP) principles and best practices using C# and JavaScript.
- Followed source control best practices using Git and Azure DevOps, fostering collaboration and supporting continuous integration workflows.
- Utilized and maintained relational databases using SQL and SSMS.
- Employed effective communication with product stakeholders and team members.

IT Help Desk Technician

Acuren Engineering – Full Time

Nov 2023 – Feb 2025

- Analyzed and resolved issues relating to software, hardware, and computer networking.
- Ensured security and privacy of computer networks and computer systems.
- Administered Azure accounts for employees throughout the company.
- Managed and maintained inventory of company IT assets.
- Deployed work computers using Microsoft Autopilot.

IT Services Accessibility Production Analyst

California State University, East Bay – Full Time (Extended)

Sep 2021 – Oct 2023

- Monitored ICT triage process in Service Now and escalated to other staff as needed.
- Reviewed ICT request content & facilitated communication with campus requesters and vendors as needed.
- Provided virtual and front-line support to students, faculty, and staff to ensure timely access to accessible materials.
- Maintained and updated OCR software and Assistive Technologies on production systems.
- Processed physical and electronic course materials & textbooks into accessible format(s).
